nirvsystem

3 ways to benefit from using NirvSystem for onboarding healthcare learners and staff

Seamless Integration

◈ Create rich, contextual learner and staff profiles.

◈ Accelerate registration timelines.

◈ Integrate user data from various external sources.

Risk Mitigation

◈ Accurately collect required documents and certifications for each user.

◈ Segment and manage user populations.
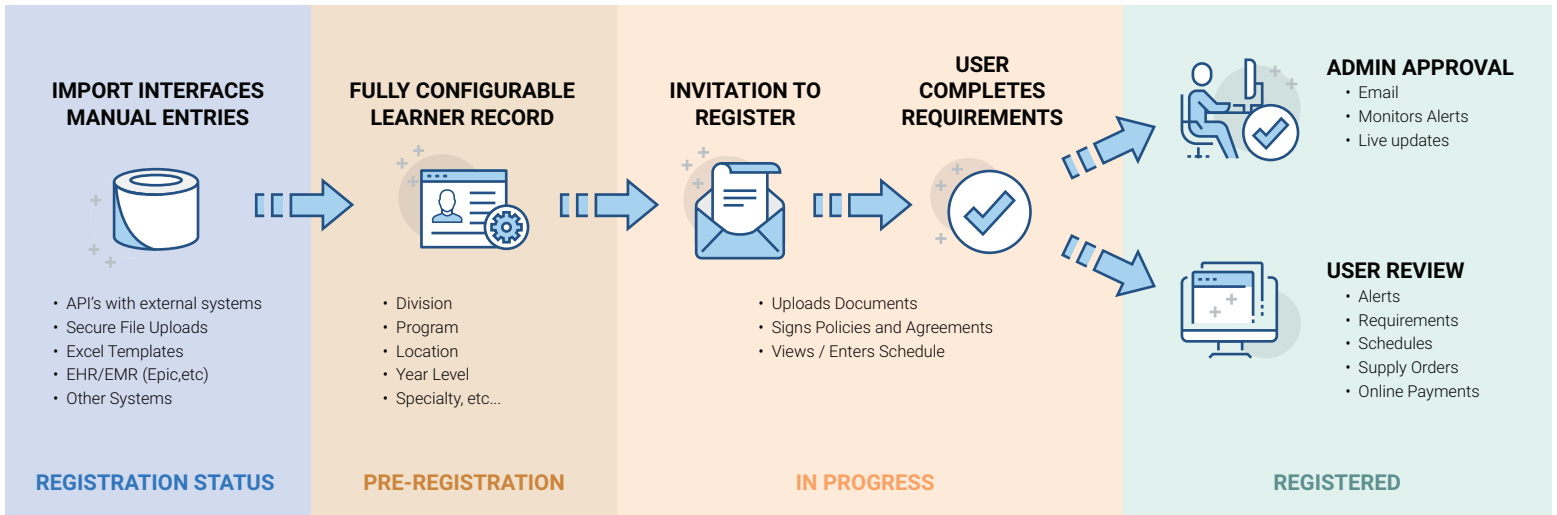

◈ Support compliance for current legislation.

Better Experience

◈ Collaborate seamlessly with inter-professional teams.

◈ Share secure messages to any device.

◈ Manage hospital items and require-ments effortlessly.

With NirvSystem, all of these benefits aren't just possible — they're easy!

- Supply Orders
- Online Payments

Save up to 80%
in Administration Effort

Our integrated modules reduce administration effort by as much as 80%, from 10 FTE (Full-Time Equivalent) days to 0.5 days.*

* per session involving 500 learners and staff

"When we used to send out invitations to interprofessional learning activities for learners we used to have to fan them out through more than 25 different people – now we can do this at the touch of a button!"

DIRECTOR, INTERPROFESSIONAL EDUCATION

With NirvSystem, you can:

Enhance communications with your learners and staff seamlessly. It takes less than 1 minute to locate all registered / non-registered users and send alerts.

Provide **100% proof of registration and regulations compliance** to any audit or accreditation body.

Allow learners and staff **to register online** at any point in time, completing requirements before coming onsite.
